CONDITIONS OF SALE: Grochem®, a brand of ADAMA New Zealand Limited (Grochem) will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of Grochem is limited to the replacement of the goods or (at the option of Grochem) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to Grochem within thirty days of delivery.

Approved Pursuant to the HSN0 Act 1996, under the Fertilisers – (Corrosive) Group Standard 2020 HSR002569. See www.epa.govt.nz for approval conditions.

DIRECTIONS FOR USE

DIRECTIONS FOR USE: Jewel is a pre-harvest water stain remover for use on kiwifruit to improve colour and reduce packout rejects. Jewel contains a buffered solution of lactic acid and phosphoric acids with a wetting agent and anti-foam.

TIMING: Apply shortly before harvest (i.e. 1-3 days) in good drying conditions to dry fruit. May be applied to damp fruit, but only in good drying conditions. Application rate: 5 litres per 1000 litres of water as a dilute spray. No additional surfactant is required.

SPRAY RATE: Use 2000-3000 litres of water per hectare. Increase rate to 4000 litres for difficult conditions (bad staining or dense canopy). Consider split applications in opposite directions through block.

TRACTOR SPEED: For best results maintain a tractor speed of between 3-4km/h.

COMPATIBILITY: Jewel is best not mixed with other materials. Avoid using with hard water.
