

WARNING
KEEP OUT OF REACH OF CHILDREN

FERTIGATE-Y

FERTILISER

FORMULATED FOR YOUNG PLANTS REQUIRING STATURE AND HARDINESS.

grochem

CONTAINS: Nitrogen 12.8% (as urea and ammonium salt), Phosphorus 17.0% (as phosphate), Potassium 10.2% (as sulphate), Sulphur 4.2% (as sulphate), Iron 0.08%, Manganese 0.04%, Zinc 0.03%, Copper 0.01%, Boron 0.03% (as Boric acid), Molybdenum 0.004% (as molybdate) as water soluble powders. Copper, Iron, Manganese and Zinc are chelated to ensure rapid plant availability.

PLEASE READ LABEL AND SAFETY DATA SHEET COMPLETELY BEFORE USE
THIS PRODUCT MUST NOT BE USED FOR ANY PURPOSE OR ANY MANNER
CONTRARY TO THIS LABEL.

WARNING: Causes serious eye irritation. Suspected of damaging fertility or the unborn child.

Wash exposed skin thoroughly after handling. Wear protective gloves and eye equipment.

DO NOT handle until all safety precautions have been read and understood.

FIRST AID: If exposed or concerned: get medical advice/attention

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists – get medical advice/attention.

Call a POISON CENTRE or Doctor if effects persist or you feel unwell.

24-hour Emergency Telephone Number – For advice contact the National Poisons Centre – 0800 POISON (0800 764 766) – or doctor, immediately. Have product container or label at hand.

For specialist advice in an emergency only, call 0800CHEMICAL (24h 0800 2436225). For transport emergency dial 111.

CONDITIONS OF SALE: Grochem®, a brand of ADAMA New Zealand Limited (Grochem) will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of Grochem is limited to the replacement of the goods or (at the option of Grochem) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to Grochem within thirty days of delivery..

Approved Pursuant to the HSNO Act 1996, under the Fertilisers (Subsidiary hazard) group standard. No HSR002571. See www.epa.govt.nz for approval conditions.

DIRECTIONS FOR USE:

DIRECTIONS FOR USE: Fertigate Y is formulated as a balanced feed for use in establishing young plants. The ratio is suitable for situations where plant stature and hardiness is required with some extension growth. Fertigate Y is generally suitable for use where high phosphorus levels are required coupled with adequate levels of nitrogen and potassium.

APPLICATION: To dissolve, add fertiliser to water at a maximum concentration of 1kg per 4L of water, and stir until dissolved. The use of hot water speeds up the process.

FERTIGATION: Apply Fertigate Y at a rate of 0.5 – 2.0 kg per 1000 litres of water depending on plant size and growth stages. Fertigate Y is suitable for use through all types of fertigation systems including spray systems.

FEATURES: Fully soluble. Chelated trace elements. No precipitation or nozzle blocking. Buffered. Safe on foliage.

SAFETY DATA SHEET: A Safety Data Sheet should be available at all work places where Fertigate O is stored or used (available from Grochem or www.grochem.com).

STORAGE AND TRANSPORT: Store locked up in a cool dry place. Do not carry on a passenger service vehicle.

DISPOSAL: This product should be disposed of by use in the manner described on the label, or by depositing it in an approved landfill. Dispose of empty packaging by recycling with an approved recycling programme such as Agrecovery.
