KIWI FINISH[®]

A FULLY SOLUBLE POWDER FOR THE CORRECTION
OF POTASSIUM DEFICIENCY

grochem

Contains: Nitrogen 6.4% (as urea and ammonium salt), Phosphorus 6.2% (as phosphate), Potassium 30.8% (as chloride), Sulphur 2.7% (as sulphate), Magnesium 0.09% (as sulphate), Iron 0.14% (as chelate), Manganese 0.06% (as chelate), Zinc 0.06% (as chelate), Copper 0.07% (as chelate), Boron 0.03% (as boric acid), Molybdenum 0.001% (as molybdate), Iodine 0.006% (as iodide) as water soluble powders. Copper, Iron, Manganese and Zinc are chelated to ensure rapid plant availability.

PLEASE READ LABEL AND SAFETY DATA SHEET COMPLETELY BEFORE USE THIS PRODUCT MUST NOT BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL.

WARNING: Harmful if swallowed or inhaled. Causes serious eye irritation. May cause an allergic skin reaction. Suspected of damaging fertility or the unborn child. Harmful to terrestrial vertebrates.

DIRECTIONS FOR USE:

Kiwi Finish has been specifically formulated as a foliar feed to supply high levels of plant available nutrients for supplementary feeding to ensure top yields and performance. It is designed to be absorbed by the plant foliage and will not burn or scorch plant growth when applied at recommended rates.

Contains the growth stimulant TRIACONTANOL.

Water rates: Adequate water coverage is an essential component of effective foliar spraying. With all Grochem foliars we recommend a minimum of 100 litres of water per hectare via conventional ground spraying equipment or 60 litres per hectare via aerial spraying.

MIXING INSTRUCTIONS:

1. Add one quarter of the spray water to the tank and begin agitation.
2. Either pre-dissolve the powder in 5 times its volume of water or add to the inlet screen and wash into the spray tank with the remainder of the water.
3. Add any trace elements next, starting with solids, then dispersion and finally solutions.
4. Lastly add any chemicals.
5. Apply immediately. Do not store mixed chemicals.

Note: Where a product datasheet specifies that the products should be added in a different order than above (e.g. Copper Hydroxide) then follow those instructions. If in any doubt about compatibility or unfamiliar chemicals are being used then a trial mix is recommended.

APPLICATION RATES:

CROP	RATE/HA	RECOMMENDATIONS
Kiwifruit, Citrus, Avocado, Grapes, Pipfruit, Stonefruit	3-5kg	Apply every 10-14 days as part of a foliar programme.

HANDLING ADVICE: Do not eat, drink or smoke while using this product. Wash exposed skin thoroughly after handling. Wash contaminated clothing before reuse, contaminated work clothing should not be allowed out of the workplace. Wear protective gloves, clothing and eye equipment. Do not handle until all safety precautions have been read and understood. This product MUST NOT be used for any purpose or any manner contrary to this label.

FIRST AID:

IF SWALLOWED: Rinse mouth. Immediately call a POISON CENTRE or doctor/physician.

IF IN EYE: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical advice/attention.

IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs, get medical advice/attention. **IF INHALED:** Remove to fresh air and keep at rest in a position comfortable for breathing.

CALL A POISON CENTRE OR DOCTOR IF EFFECTS PERSIST OR YOU FEEL UNWELL.

24-HOUR EMERGENCY TELEPHONE NUMBER – FOR ADVICE CONTACT THE NATIONAL POISONS CENTRE – 0800 POISON (0800 764 766) – OR A DOCTOR, IMMEDIATELY. HAVE PRODUCT CONTAINER OR LABEL AT HAND.

FOR SPECIALIST ADVICE IN AN EMERGENCY ONLY, CALL 0800 CHEMICAL (24HRS) OR 0800 243 6225 IN A TRANSPORT EMERGENCY DIAL 111

SAFETY DATA SHEET: A Safety Data Sheet (SDS) should be available in all work places where Kiwi Finish is stored or used (available from Grochem: grochem.com).

HANDLING: Wash face, hands and all exposed skin thoroughly after handling. Avoid breathing dust or spray. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Use personal protective equipment as required. Avoid release to the environment.

STORAGE AND TRANSPORT: Store locked up in a cool dry place. Do not carry on a passenger service vehicle.

DISPOSAL: This product should be disposed of by use in the manner described on the label, or by depositing it in an approved landfill. Dispose of empty packaging by burying in an appropriate landfill.

CONDITIONS OF SALE: Grochem[®], a brand of ADAMA New Zealand Limited (Grochem) will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of Grochem is limited to the replacement of the goods or (at the option of Grochem) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to Grochem within thirty days of delivery.

Approved Pursuant to the HSN0 Act 1996 under the Fertilisers (Subsidiary hazard) group standard No. HSR002571. See www.epa.govt.nz for approval conditions.
