

Lime Sulphur

200g/L Sulphur as Calcium Polysulphides in the form of a soluble concentrate

Grochem Lime Sulphur is used as an organic fungicide, acaricide, insecticide, winter orchard clean up in grapes, apples, stonefruit and as a thinning agent in apples.

Grochem Lime Sulphur is manufactured in New Zealand for New Zealand conditions.

This high quality lime sulphur is manufactured using a highly refined process that produces no contaminants in the end product ensuring the best quality product is delivered to growers.

Grochem Lime Sulphur is also the only Lime Sulphur on the market with a thinning claim for apple growers.
