TRACE-IT MAGNESIUM™

PLEASE READ LABEL AND SAFETY DATA SHEET COMPLETELY BEFORE USE

Causes serious eye irritation.

PRECAUTIONS: Keep out of reach of children. Store in original container, away from foodstuffs. Wear suitable impervious gloves and eye protection and avoid contact with any exposed skin. Wash hands with warm soapy water after use and before handling food.

FIRST AID: Call a POISON CENTRE or doctor/physician if you feel unwell. If medical advice is needed, have product container or label at hand.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists, get medical attention/advice.

For advice, contact the National Poisons Centre 0800 POISON (0800 764766) or a doctor immediately.

For specialist advice in an emergency only, call 0800 CHEMCALL (24hrs) or 0800 243 6225.

In a transport emergency dial 111.

A Safety Data Sheet is available from Grochem or www.grochem.com

STORAGE: Keep in cool, dry chemical store, out of reach of children and animals. Protect from frost and other climatic extremes (including temperatures exceeding 40°C). Poor water quality may reduce the effectiveness of the product, the solubility of the product and/or increase the potential for phototoxic effects on plants.

DISPOSAL: Dispose of product by using as directed on this label or at an approved landfill. Triple-rinse empty container into spray tank and deliver to an appropriate recycling depot

CONDITIONS OF SALE: Grochem®, a brand of ADAMA New Zealand Limited (Grochem) will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of Grochem is limited to the replacement of the goods or (at the option of Grochem) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to Grochem within thirty days of delivery.

Approved Pursuant to the HSN0 Act 1996, under the Fertilisers – Subsidiary Hazard group standard HSR002571. See www.epa.govt.nz for approval controls

GCTRACEMG/0525

DIRECTIONS FOR USE:

ALWAYS FOLLOW LABEL INSTRUCTIONS.

Mix Trace-it Magnesium in its container thoroughly before use. Fill the spray tank until three quarters full with water and then, whilst agitating the spray tank, add the Trace-it Magnesium via the top filter. Continue agitation until application complete. Always apply diluted or mixed chemicals immediately, do not store.

TANK MIXING OR CO-APPLICATION: Read all labels carefully and adhere strictly to instructions on mixing. Apply to small test area only when using unfamiliar products or new crops.

Many variables are outside the control of ADAMA and can influence results of co-applied products and therefore co-application is entirely at the risk of the end user.

Trace-it Magnesium should be applied in low light conditions in the morning or evening or on cloudy days. Do not apply during periods of high sunlight, heat, during rain or prior to expected rain.

Where a deficiency is severe, additional applications may be required.

APPLICATION RATES:

CROP	RATE/HA	MIN WATER RATE/HA	RECOMMENDATIONS
Avocado	3-5L	500L	Apply during the spring flush and again during summer flush.
Brassicas	2-3L	200L	Apply one or more times between 4 true leaf stage and fully headed stage.
Carrots	2-3L	200L	1-2 applications, 10-14 days apart, from 15cm tall onwards.
Cereals	2-3L	200L	Applied during tillering and again at flag leaf emergence if necessary.
Citrus	3-4L	500L	Apply 1-2 times during spring flush and again during autumn flush.
Cucurbits	3-4L	200L	2-3 applications at least 7 days apart, beginning when enough leaf to effectively intercept spray.
Grapevines	2-4L	500L	Apply 2-3 times, 20-30 days apart, beginning at cap fall.
Kiwifruit	2-4L	500L	Apply during shoot extension and again after petal fall and repeat during fruit development as necessary.
Legumes	2-4L	200L	Apply once when 10-15cm high.
Lettuce	2-4L	200L	Apply as required at least 7-10 days apart, from 10-14 days after emergence until 3/4 of final size.
Maize / Corn	2-4L	200L	Apply between 4-8 leaves stage.
Olive	2-4L	500L	Apply just after bud-break and again at opening of calyx.
Onion	3-4L	200L	Apply up to 3 applications at least 10-14 days apart, from when sufficient leaf is available to intercept spray.
Pipfruit	2-4L	500L	Apply as required at least 10-14 days apart, from 4 weeks after petal fall.
Potatoes	3-4L	200L	1-2 applications between 1-4 weeks after 100% crop emergence. Apply again during bulking if required.
Stone Fruit	2-4L	500L	Apply as required at least 10-14 days apart, from stone hardening onwards.
Strawberries	2-3L	200L	Apply during spring growth and again during green bud.
Tomato	3-4L	200L	Commencing when plants are 15cm high and repeated 10-14 days later.
