

**DANGER: KEEP OUT OF REACH OF CHILDREN**

Please read label and safety data sheet completely before use

# CITRIMIN™

CONTAINS: Nitrogen 2.4% (as ammonium salt), Phosphorous 5.3% (as phosphate), Magnesium 8.7% (as sulphate), Manganese 4.4% (as sulphate), Zinc 2.6% (as sulphate), Iron 0.2% (as chelate), Boron 0.07% (as boric acid), Sulphur 15% (as sulphate) as water soluble powders.

**DANGER:** Causes serious eye damage. Suspected of damaging fertility or the unborn child. Causes damage to organs. Toxic to aquatic life with long-lasting effects. Harmful to the soil environment

Do not handle until all safety precautions have been read and understood. Do not breathe dust, fume, gas, mist, vapours or spray. Wash hands, face and all exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Use personal protective equipment as required. Avoid release to the environment. **Contains the growth stimulant TRIACONTANOL (0.001%).** Citrimin is a foliar trace element blend for use citrus fruit. It is a blend of Magnesium Manganese and Zinc. Heavy cropping commercial citrus trees are often unable to absorb sufficient of these elements from the soil. Citrimin provides them for foliar application in a fully soluble, immediately available form.

**DIRECTIONS FOR USE:** Citrimin should be applied in low light conditions in the morning or evening or on cloudy days. Do not apply during periods of high sunlight, during rain or prior to expected rain. Use at least 500L/ha of water. If using with Calcium Nitrate, the water rate needs to be 2000L/ha. Citrimin should be used to supplement natural levels of Magnesium, Manganese and Zinc. For specific deficiencies shown by leaf analysis we recommend a program using single element products such as Trace-it Magnesium etc. Use 12kg/ha on mature citrus trees. Apply at least two applications of 6kg/ha, one in spring and one in autumn. More frequent applications of smaller amounts are preferred. If a regular program of foliar nitrogen is applied then Citrimin can be incorporated in this. For young trees, 3-4 applications of 2kg are recommended.

**COMPATIBILITY:** Citrimin may be applied with most insecticides, fungicides or nutrient sprays. It is compatible with most chemicals but for unknown or doubtful chemicals a test mix should be made up. Generally, Citrimin should be added before most chemicals, except where product data sheet specifies otherwise ie cupric hydroxide. Always apply diluted or mixed chemicals immediately. Do not store.

**STORAGE & TRANSPORT:** Store locked up in a cool dry place. Collect/Contain any spillage. Do not carry on a passenger service vehicle.

**SAFETY DATA SHEET:** A Safety Data Sheet is available from Grochem or [www.grochem.com](http://www.grochem.com)

#### FIRST AID:

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor/physician.

**IF INHALED:** Remove to fresh air and keep at rest in a position comfortable for breathing.

**IF SWALLOWED:** Rinse mouth, give plenty of water. Do NOT induce vomiting.

**IF ON SKIN:** Wash with plenty of soap and water.

Call a POISON CENTRE or Doctor if effects persist or you feel unwell.

**24-hour Emergency Telephone Number – For advice contact the National Poisons Centre – 0800 POISON (0800 764 766) – or doctor, immediately. Have product container or label at hand.**

**For specialist advice in an emergency only, call 0800 CHEMCALL (24hrs) or 0800 243 6225. In a transport emergency dial 111**

**DISPOSAL:** This product should be disposed of by use in the manner described on the label, or by depositing it in an approved landfill. Dispose of empty packaging by recycling with a suitable recycling programme, such as Agrecovery.

**CONDITIONS OF SALE:** Grochem®, a brand of ADAMA New Zealand Limited (Grochem) will not accept any responsibility whatsoever and howsoever arising and whether for consequential loss or otherwise in connection with the supply of these goods other than the responsibility for the merchantable quality of the goods and such responsibilities mandatorily imposed by the Statutes applicable to the sale and supply of these goods. To the extent allowed by such Statutes the liability of Grochem is limited to the replacement of the goods or (at the option of Grochem) the refund of the price paid and is conditional upon a claim being made in writing and where possible sufficient part of the goods to enable proper examination being returned to Grochem within thirty days of delivery.

Approved Pursuant to the HSNO Act 1996, under the Fertilisers (Subsidiary Hazard) Group Standard. No HSR002571. See [www.epa.govt.nz](http://www.epa.govt.nz) for approval conditions.
